There are no make-up labs, lowest lab score is dropped. A lab report is due the day following the experiment and must include the elements below. Late reports: 1 point deducted each day, after 3 days report not accepted.

- i) **Title and date;**
- ii) **Aim**, this is usually very short (one or two sentences) and gives the reader an idea of the purpose of the lab;
- iii) **Theory**, relevant equations and mechanisms if any and the general theory behind the lab is presented here;
- iv) **Materials**, list all the reagents, amounts, and equipment necessary for the experiment;
- v) **Method**, here you must write exactly what you did. This must be in the past tense and in the third person so that someone who knows nothing about the lab can follow what you did and be able to repeat the experiment. Please do not itemize the method(s) employed.
- vi) **Results**, here you will do your calculations, report any observations etc.
- vii) **Conclusion**, this is also very brief and must tie-in with your aim.
- viii) **Questions:** Answer the questions that are indicated in your handouts.
