

AUTOMATIC EXTERNAL DEFIBRILLATOR UNIT LOCATIONS

SUNY College at Old Westbury is committed to saving lives by implementing and maintaining a public access defibrillator (PAD) program. This program strategically places Automated External Defibrillators (AED) throughout the campus in various locations.

Sudden Cardiac arrest is a leading cause of death in the US, claiming approximately 250,000 lives annually. The American Heart Association estimates that more than 50,000 lives could have been saved if life-saving AEDs were made more widely available at the time of the emergency. An AED is a small, portable, user-friendly device that analyzes the heart rhythm and, if necessary, delivers a shock to restore an effective heart beat. If you would like more information about our AED program, please contact Officer Joseph Hennie at henniej@oldwestbury.edu.

**Contact University Police at 516 876-3333 for all
On-Campus Medical Emergencies**

	Building Location	Physical Location	Section/Floor	Notations
1	Academic Village	Lobby in front of Police Dept Headquarters	D - Section 1 st Floor
